DESIGN & PRODUCT DEVELOPMENT

Great products begin with a thoughtful idea. Our design and product development process combines trend intelligence, material exploration and technical expertise to create original, timeless collections that resonate with global markets.

From initial concept to final prototype, we refine every detail to ensure aesthetic excellence, functional performance and manufacturability at scale.

7G GLOBAL LINK SOLUTIONS

OUR DESIGN & DEVELOPMENT PROCESS

01 CONCEPT & RESEARCH

We study global trends, lifestyles and market needs to define concepts that inspire and stand out.

02 SKETCH & DESIGN

Our designers create original sketches and technical drawings that balance creativity with functionality.

03 3D MODELING & PROTOTYPE

Ideas take shape in 3D. Prototypes are developed to evaluate form, proportion, fit and performance.

04 MATERIAL & FINISH TESTING

We test and refine materials, finishes and combinations to achieve the perfect balance of beauty and durability.

05 FINAL DEVELOPMENT

Every detail is perfected to ensure the final product exceeds expectations in quality and aesthetics.

DESIGNED TO INSPIRE BRANDS

We don't just follow trends, we create designs that help brands tell their story and connect with their customers.

TREND DRIVEN
Global trend analysis to create relevant, timeless designs.

ORIGINAL DESIGNS
In-house creativity that ensures unique, exclusive collections.

MATERIAL EXPERTISE
Deep knowledge of glass, wood, marble, stone and finishes.

QUALITY FOCUSED
